

Boundary-case blind review

11 synthetic sponsored-video script cases for independent, rule-by-rule review

Purpose

Please judge whether each proposed script should PASS, FLAG, or go to HUMAN_REVIEW under the supplied CHANEL public Social Media Guidelines. The cases test consistent handling of subjective competitor criticism, comparison language, first-hand product opinions, unknown use, and overlapping rules.

Instructions

- Review every applicable rule for every case. A case may involve more than one issue; do not assume each case tests only one rule.
- Do not search for prior labels, model outputs, or earlier review packets. Use only the facts printed here and the linked source.
- Unknown product use does not mean the creator did not use the product. A first-person script statement is a claim, not independent verification.
- For each case, record verdict, project rule IDs, exact evidence, a short rationale, confidence, and any missing fact that could change your judgment.
- The CH-* identifiers are project labels, not official CHANEL rule numbers. These are proposed scripts, not verified published videos.

CAL-11 - CASE FOR REVIEW

Context	English - Sponsored short video
Use and claims	Creator's use of discussed product: not used; claim sources: none
Caption	Caption: #ad - "My review: I tried this serum and recommend it."
Spoken script	Spoken script: "I have never tried this serum, but my review is that it works beautifully."
Visual and on-screen	Visual endorsement: no; on-screen text: none

Reviewer response

For each case, provide the verdict, rule IDs (or "none"), exact evidence, a concise rationale, confidence (high/medium/low), and any missing fact or context that could change the verdict. If multiple rules apply, record rule-level assessments separately before giving the overall verdict.
